INTRODUCTION
by *LABenson*

In 1961, I was hired by Jim Chaffee to be a drawing Control Clerk in the Automatic Antenna Coupler (AAC) Department in Plant 1. At that time Noel Stone was the CHIEF Engineer. Pages 2 - 3 are his organization in sequence and pages 4 - 5 are an alphabetical listing.

Ed Stryker, sequence # 18, was the AAC manager reporting to Val Hertzfeld. Jim Chaffe and Al Mueller, the first VIP Club president, reported to Ed. Reviewing the department names, AAC was small potatoes compared to the NTDS and Athena programs.

Eight of the management people in Mr. Stone's 1961 organization are yet with us and current VIP Club members:

Seq #	Name	First	Department
29	Kenyon, L.D.	Dale	Advanced Development
33	Petschauer, R.J.	Dick	Film Memory Laboratory
35	Burrell, W.P.	Warren	Computer Systems
37	Phipps, P.L.	Phil	Systems Analysis
47	Weidenbach, D.M.	Don	ADD-Athena
51	Nelson, W.C.	Curt	Athena Continuation
52	Hanson, R.C.	Bob	Athena Programming
58	Lantto, E.S.	Ernie	Ascension Island Equipment

Three of these pioneers have served on the VIP Club Board, seven have contributed articles or career summaries to our IT Legacy web site. Three of them contributed first names for the following pages.

If you the reader can add any missing first names or notice errors, please send an email to webmaster@vipclubmn.org.
