MEMBERSHIP

The membership update at the latest board meeting reported 471 total paid members; 85 members are life members over 90 years old. 85 memberships expired in December 2024 and have not been renewed.

See a listing of all members and when their membership will expire at <https://vipclubmn.org/Temp/PaidMembershipStatus2025.pdf>. Members that want to renew can complete the membership form found at https://vipclubmn.org/ClubForms/MEMBERSHIP_FORM.pdf and mail it, along with the dues payment, to VIP Club MN, PO Box 21903, Eagan, MN 55121.

UPCOMING EVENTS

Syttende Mai May 16 at Casper's Cherokee of Eagan, 4625 Nicols Road. Doors open 11:00 a.m., lunch at 11:30. Check for an Evite for details.

Annual Reunion Picnic June 18, returning to the Eagan Central Park Pavilion, 1497 Central Pkwy. Watch the website and your e-mail/Evites for details.

Roseville Good Old Days September 11 at the Rosetown American Legion Post, 700 County Road C West in Roseville. Details TBD.

Old Timers' Reunion November 6, 11:00 a.m. – 4:00 p.m. at the Lost Spur Golf and Event Center, 2750 Sibley Memorial Hwy in Eagan.

Event Details:

Syttende Mai May 16 at Casper's Cherokee of Eagan, 4625 Nicols Road. Doors open 11:00 a.m., lunch at 11:30. Check for an Evite.

- **IMPORTANT:** Reply to Evite or register with Dale Torgerson before May 9 at dale.o.torgerson@gmail.com or text to 612-597-3714; need count for food quantities
- **COST:** \$27 for lunch; cash bar also available
- **FOOD:** Choose steak, salmon, BBQ ribs, or chicken for sit-down lunch that includes salad, side, vegetable, beverage (coffee, tea), and dessert
- **PROGRAM:** Speaker: Pr. Tim Peterson, Lt. Col. Army National Guard Chaplain (retired), is a former pastor at Mindekirken (Lutheran Memorial Church, Mpls.), and at the American Lutheran Church in Oslo, Norway. He will

talk about his journey to discover his Norwegian heritage, and discuss this year's 200th anniversary of Norwegian immigration to America.

Dale Torgerson and Dick Lundgren are coordinating.

Annual Reunion Picnic June 18 at Eagan

Central Park Pavilion. Watch the website and your e-mail/Evites for details as they become available. RSVPs will be required one week before the event. Remember, **NEW THIS YEAR: NO** alcoholic beverages will be allowed or provided at the VIP Club Picnic, and you **MAY NOT** bring alcoholic beverages. Liquor liability insurance will not be purchased. The VIP Club will provide soft drinks, bottled water, and food at the picnic. *John Westergren coordinating.*

VIP Club 2025 Scheduled Board Meetings: Jun 4, Aug 6, Oct 1, and Dec 3 at the Dakota County Historical Society Lawshe Museum, 130 3rd Ave North, So. St. Paul. Club members curious about club business may join us. Contact the president two days prior for access.

SOCIAL REPORT

Volunteer Recognition Luncheon All VIP Club members who volunteered in 2024 were invited to the recognition luncheon at Joseph's Grill on April 16. Any volunteer activity qualified for an invite and no accounting of volunteer hours was required. We had 24 attendees who enjoyed the free lunch and all its fixings.

Following the lunch, Kris Wilmunen, Unisys Senior Solution Manager, OS 2200 Software and OS 2200 Software Series, spoke regarding the Unisys Eagan facility: "In 2024, Unisys contracted data center space with a provider located in Woodbury, MN, and began moving computer systems to the new location. Currently, the equipment move is approximately 80% complete and projected to conclude in July 2025. The Unisys team has done fantastic work to adhere to the project schedule and has been well-organized to facilitate a smooth transition to the new data center facility. Fifteen Unisys associates are assigned to an office suite in the Woodbury data center

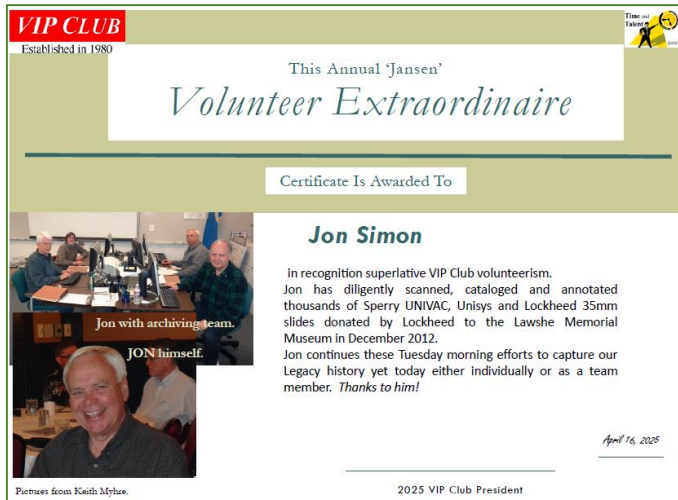

THE VIP CLUB IS FOR RETIREES AND FORMER EMPLOYEES OF OUR GREAT HERITAGE COMPANIES

facility as their permanent work location. These associates perform hands-on services of the computer systems to keep them up and running.

The remaining Unisys associates in the Pilot Knob Road office in Eagan, MN have consolidated into the northwest section on the main floor of the building. That is good news as it means we can retain the Unisys and IT industry history as captured in the technology display cases with us in this office location.

The new Unisys Chief Operating Officer, Chris Arrasmith, recently visited the Eagan office and acknowledged the valuable historical information contained in those displays.”

Kris Wilmunen / Senior Solution Manager

PRESIDENT'S MESSAGE

Hopefully we are done with the snow and the cold. I'm ready to see leaves on the trees and green grass! Our taxes have been filed, the bowling ball is in the closet, and my golf clubs are in the car. I'm looking forward to the upcoming golf season. We have a wonderful golf league, www.ulglmn.org, that organizes golf leagues and tournaments from spring to fall. The website is incredible due to the work of webmaster Ron Shursen. New members are always welcome to join for \$20 and play in tournaments and/or leagues. If you are a golfer, check us out!

The VIP Club is celebrating its 45th anniversary this year! It is a good time to reflect on the beginning of the club and who made it happen. Millie Gignac, in her role in Human Resources, came up with the club idea as she recognized that as people retired from the company, they were eager to keep a connection. You can read her recollection of the birth of the club on our website at <https://vipclubmn.org/history.html#Birth>. Millie remained

active in the club until her death in 2021 at the age of 100. We thankfully remember her leadership.

After 45 years, the future of the VIP Club is in jeopardy! The membership is declining as members pass away. Paid membership is down to 471. The expenses are rising as company sponsorship has ended. We currently project that in 2025 we will spend \$4,700 more than is taken in. Finally, it has become harder to find members willing to join the club board. Without the board, the club will quit functioning! Currently, there are two board openings for directors, with two unfilled positions, a vice president and a treasurer. The board organizes the annual club events. It holds two-hour meetings six times a year to conduct club business. The time commitment is minimal! If you are willing to pitch in, please give me a call or send me an e-mail.

To end on a more positive note, I am looking forward to attending the Volunteer Recognition Luncheon which will have happened by the time this newsletter reaches you. We hold this event annually to recognize the good work and support that our members generously provide throughout the community. Keep up the good work! And have a wonderful summer!

Jim Andrews, VIP Club President

YOUR STORY

International VIP Club Member

Pierre Iskos

Keith Myhre shares his story of Pierre Iskos, a former coworker and friend he caught up with while in Greece last year.

As of December 2024, the VIP Club had five international members: three in Canada and one each in Germany and Greece. Last October, I flew into Athens for the start of an Aegean cruise to Istanbul. While in Athens, I got together with one of them: Pierre Iskos. It had been 13 years since I last saw Pierre. Both times, Pierre picked us up at our hotel and drove us to the southern tip of Attica to visit the Temple of Poseidon on Cape Sounion ([Temple of Poseidon](#)). This time it took a bit longer since Pierre hadn't driven this route since my last visit. A lot of new construction and road changes resulted in some wrong turns.

After returning to Athens, Pierre treated us to lunch near his home in Papagou (Athens suburb). He then drove us past his home, which is in a state of construction. He had his previous home torn down, and a new home is being built in its place. There are four stories: one for each of his two sons and two daughters and their families.

Pierre Iskos emigrated from Greece when he was 17, got his electrical engineering degree from the University of Illinois in 1964, and became a U.S. citizen.

The Field Engineering Department of Sperry UNIVAC Defense Systems hired Pierre in February 1965 to support the Apollo space program that was just beginning. He started working with design engineers Bob Oulicky and Don Mager doing design testing of the new 1230 computer which was designed for the Apollo Project (<https://vipclubmn.org/CP30bit.html#Type1230>).

In October 1965 he was sent to Goddard Space Flight Center with several other field engineers to provide technical support to NASA personnel on the Apollo space program, as well as to the 100+ UNIVAC

Temple of Poseidon – November 2013

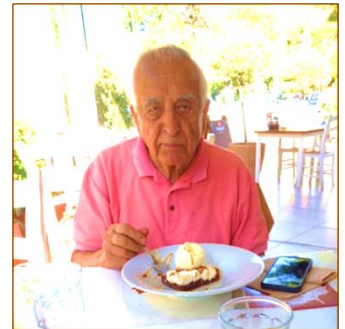

Temple of Poseidon – October 2024

on-site programmers. Six months later he was promoted to site supervisor, a position he held until a transfer to Germany in December 1971 to provide technical support to the German Navy and the UNIVAC programming team at the Wilhelmshaven Naval Base, working on development of the Fast Patrol Boat system. He stayed there for nine months, then moved to Bonn/Bad Godesberg, where he provided systems engineering support to marketing and led marketing initiatives for southern Europe and the Middle East.

In 1976, Sperry UNIVAC won a contract with the Greek Navy for the *Kanaris* submarine fire control system. Pierre was sent to Greece to be the in-country marketing rep for Greece and the Middle East.

In 1994, 18 years later, the company brought Pierre back to St. Paul to work with various marketing teams before being laid off in March of 1996, whereupon he and his family moved to Greece (see [Pierre Iskos Career Summary](#)).

Pierre is doing well at age 88. He said he does sit-ups and push-ups every morning and walks every day. He is still driving, but thinks this may be his last year since he has to requalify for his driver's license next year. As usual, Pierre asked lots of questions about his UNIVAC friends and the status of the "company" in MN. And, he had a number of stories about his days at UNIVAC, especially as a field engineer on Apollo missions.

LEGACY STORY

Other Apollo Bits

Other Apollo bits in our Legacy Anthology are:

- Apollo Computers from Don Mager, <https://vipclubmn.org/Articles/Apollo.pdf>
- Apollo 11 support by Tom Weyrick, <https://vipclubmn.org/Articles/Apollo%2011-20190802Weyrick.pdf>
- Steve Anderson's Apollo 11 interview on PBS, <https://video.tpt.org/video/apollo-11-memories-from-univac-engineer-steve-anderson-35714/>
- Larry Bolton scanned a Star Tribune article, <https://vipclubmn.org/Articles/MoonAstronauts.pdf>
- 1969 Forest Crow letter via Andy Simon, <https://vipclubmn.org/Articles/Apollo11Success.pdf>
- Woody Knight's bit on page of 4 of <https://vipclubmn.org/Newsletters/Enews2409.pdf>.

Our Stories Updates

May: We posted the Integrated Light Attack Avionics System (ILAAS) story with several aircraft installation photos from Lee Sheldon. We also updated <https://vipclubmn.org/cp18bit.html#1818> with the original checkout lab setup of the system.

June: We posted a fourth set of stories from Dick Erdrich, including his 90s activities in Salt Lake City. Also therein are kudos for a few project/program successes. All are linked individually from the website: <https://vipclubmn.org/OurStories.html#2025>.

One small print hidden kudo is therein: “In 1997, Loral sold Eagan to Lockheed and SLC to L-3 Communications. SLC had hired a bunch of new grads anticipating a big contract award. When Bosnia sucked up government contract funds, L-3 had a surplus of people and commitments to their new hires—thus gave layoff packages to the people from Eagan. However, Keith Behnke convinced upper management to hire ‘us’ back in Eagan. Keith Behnke and Jerry Osiecki were the prime movers in getting us back home and for that I will be ever grateful, Dick”

Celebrations

This 50 Years of Microsoft screen popped up on my PC:

Our VIP Club had an opening ceremony 45 years ago on July 24. We formed a Legacy Committee 20 years ago at the club’s October 2005 board meeting. The upcoming newsletter will include an article about the club’s 45th celebration at the picnic, the Legacy Committee’s 20 years, and perhaps bits about ERA’s conception 80 years ago and the many celebrations since then.

LABenson

LETTERS TO THE EDITOR & more . . .

History Date

Lowell Benson shared this with us:

When did the U of MN receive its CDC 1604 Computer? I recently emailed Peter Patton, PhD this question [<https://vipclubmn.org/People6.html#Patton>]. His response was: “I have no idea Lowell. I had no connection to UMinn until 1971. Good to hear from you. I retired from teaching at my wife’s alma mater,

Oklahoma Christian University, two years ago on my 88th birthday. I practiced and taught engineering for 68 years and enjoyed every minute of it. Pete”

The Good Old Days

VIP Club Board members received the following Sperry Twin Cities 1986 Edition e-mail from Board Associate Paul Dickson:

“Many of us remember the Good Old Days. Today we sometimes think we are dreaming about some of the facts about our presence at that time in Minnesota and Iowa.

This 1986 edition of the Sperry Twin Cities News lists our facilities in that period, as well as the number of employees in each location (<https://vipclubmn.org/Newsletters/SperryTwinCitiesNewsFeb1986.pdf>).

Adding it up, we had 15,172 employees in this area. Nice to reminisce.

Paul”

New Newsletter Section!!

Do you enjoy newsletters, old and new? Thanks to Paul Dickson sharing the *Good Old Days* above, we have added a new section to our newsletters page: <https://vipclubmn.org/newsletters.html#Sperry>. The first ‘paper’ link therein is to a 1986 Sperry newsletter that contains a plethora of information about our Twin Cities facilities, as well as a multitude of anniversary names/pictures. **If you happen to have any old Sperry newsletters, we’d like to add those to our site. PDF format is preferable.** We have also linked this 1986 newsletter in the Introduction of our Legacy Twin Cities chapter at <https://vipclubmn.org/TwinCities.html>. Thanks to Paul Dickson for this first informational Sperry paper.

Nothing Ever Stays the Same!

Speaking of our Legacy Twin Cities chapter that discusses local facilities (<https://vipclubmn.org/TwinCities.html>), check out the following note Gish Devlaminck shared with us, along with two of the photos he shared (see link below), found on page 7:

“I discovered this ‘Dakota County Air Photo Time Machine.’ I was writing an article for my history newsletter about Brockway Glass in Rosemount when I was trying to find some old aerial photos. Then I started scouting around on the map and decided to look at some of the aerial images of the area on the corner of Pilot Knob and Yankee Doodle. See <https://vipclubmn.org/Gallery/YankeeDoodlePilotKnob.pdf> for the results. I skipped over some years because the photos were almost the same. You can also go to the site to capture your own images: <https://www.arcgis.com/apps/ImageryViewer/index.html>.” Zoom in to find desired location.

IN REMEMBRANCE OF:

The obits hereunder are redacted from funeral home postings or Pioneer Press, Star Tribune, or applicable local listings. The VIP Club board extends its sympathies to the families and friends of those who have lost loved ones.

"A life that touches others goes on forever."

Dennis LeRoy Amundson — Age 83, passed peacefully February 25, 2025. Dennis graduated with an electrical engineering degree from the U of MN. As a freshman walk-on, he made the varsity baseball team but quickly discovered there weren't enough hours to play baseball and study engineering. Dennis worked as an electrical engineer and manager for Sperry/Unisys/Lockheed Martin for 34 years, where he received numerous awards of excellence, including three patents. He helped design hardware for the Navy, including ship-based missile and torpedo tracking systems; worked on an Air Force project to create flight data recorders, now used in all commercial aircraft; and worked on Stealth Bomber hardware and spent time at Skunk Works in California when the plane was just a plywood prototype. Dennis was constantly developing vibration-dampening systems to hold the electronics because of challenging environments. He developed an early solid-state memory, called bubble memory (<https://vipclubmn.org/Memory.html#Bubbles>), which is like today's USB thumb drive but 40 years earlier. Dennis enjoyed sharing his outdoorsman passion, teaching his sons to cross-country ski; camping in their pop-up camper; fishing with family, friends, and coworkers; and often making a family pilgrimage to their favorite Reed Lake spot. Dennis also had passions for photography and woodworking; enjoyed hunting, golf, playing bridge; the Twins, Timberwolves, and Vikings; and time with family. Dennis is survived by his loving wife of 60 years, Mary, his two sons, and other family and friends.

Glen Eldon Bonde — Age 81 of Ham Lake, MN passed away March 8, 2025. A coworker remembers Glen as *"one of the good guys, with an appreciated 'open door policy' to anyone wanting to talk. It didn't matter what position one had in the company; he was available to all."*

He was also a devoted lifetime member of his church. Glen is survived and missed by his wife of 58 years, Jill, two children, five grandchildren, and other family.

Sheldon Eugene Falnes — Age 94, passed away February 8, 2025, in St. Paul, MN. Sheldon was a dedicated employee at Sperry/UNIVAC in St. Paul for 34 years where he earned many awards, made

significant contributions, and formed lasting friendships. He had a passion for woodworking and stained glass, was an avid photographer, loved camping and fishing in northern MN, and was known for his kindness and warm heart, always ready to lend a helping hand. Sheldon was preceded in death by his first wife, Phyllis Madsen, and his second wife of 65 years, Mildred Marie (Peterson) Falnes; he is survived by four children, seven grandchildren, four great-grandchildren, and other family and friends.

Hilary J. "Lary" Haupt — Age 83 of Roseville, MN passed away February 21, 2025 surrounded by family. Lary was a long-time Unisys employee, member of its PC and Electronics Clubs, and a VIP Club member. He loved spending time with family and helping anyone who needed him. His time in the Air Force instilled a sense of pride and sparked his passion for electronics. Lary was involved in Boy Scouts, church councils, and his condo board. He always had a positive attitude, despite later medical challenges, and had a way of making his caregivers laugh. Lary was preceded in death by an infant granddaughter, and is survived by his loving wife, Carol, two children, seven grandchildren, a great-grandson, and other family.

Lynn Farris Lindholm — Age 82, passed away March 2, 2025 in an assisted living facility near her Gold Canyon, AZ winter retreat. Lynn worked at Unisys/Lockheed Martin for almost 20 years. After retiring, she joined the VIP Club, then served as its board secretary 2006-2012. Her favorite event was the October Pie & Ice Cream Social at Plant 4 – she bought the pies then smiled while serving attendees pumpkin slices. At the Highland Park picnics, Lynn was often in the kitchen refilling the buffet line, then doing cleanup as attendees drifted home.

She left the board when she and her husband, Paul, of Shoreview, MN

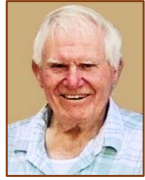

Lynn with Harvey Taipale & Dale Phelps

started wintering in AZ. Once there, Lynn continued to mail bereavement cards for the club until COVID hit in 2020. These cards were all handmade and artistically stamped giving a personal touch to the VIP Club's member condolences. While in MN, Lynn volunteered for countless hours at the Roseville Senior Gift & Craft Shoppe, even selling a few of her knitted shawls, and enjoyed the Cedarholm Golf Course. Lynn is survived

by her husband, Paul, his two children, and five grandchildren. They are planning a celebration of life in early June in Shoreview/Roseville. Lynn's vivaciousness and talents will be missed by all!

Howard Joseph Neisen — Age 85, of Coon Rapids, MN passed away March 5, 2025. Howard worked as a technical designer for 36 years at UNIVAC, Roseville. Coworkers say he was a "renowned layout draftsman. Any time we had a tough PB layout or Gate Array layout, we always asked for Howey because he listened and took it personal to get it right the way it needed to be, at times seeming impossible." He was also in public service as a councilman and mayor for Mounds View, MN and as a MN state representative. He was actively involved in his church and diner, and the North Side Life Care Center. He enjoyed fishing, playing cards, watching his granddaughters ride horses and play hockey, and spending time with family and friends. Howard is survived by his wife of 61 years, Diane (Spading) Neisen, two daughters, two granddaughters, and other family and friends.

Frederick "Fred" Anthony Schwartz — Age 83, passed away February 12, 2025. Fred studied to be an electrician at Minneapolis Vocational and went on to work at Sperry UNIVAC as a QA engineer. He then went on to work at C&J Bus, a family business. In 1983, Fred married Joan and two families blended to become one. Fred spent his life sharing his passion for the outdoors with family and friends. His fondest memories found him telling stories around a campfire, sitting in a duck blind or in a boat with a fishing pole, and playing countless games of cribbage. Fred is survived by his wife of 42 years, Joan, two children and a stepdaughter, six grandchildren, ex-wife Janet, along with other family and many in-laws, out-laws, nephews, nieces, cousins and great friends.

Late Remembrances

Dorothy Lee "Dot" (Pedretti) Bright — Age 76, of St. Paul, MN passed away August 12, 2017, at home surrounded by family. She married Jimmy Bright and they lived in the St. Paul area the majority of their married life. Dot worked at Unisys, Roseville for over 30 years, retiring in 1999.

Anna Chamberlain (Mosio) (nee Eoloff) — Age 94, passed into God's arms January 4, 2022. She was a second generation immigrant from Eastern Europe who earned music and history degrees from Hamline University. Anna married Martin Mosio and they raised five children. After Martin's death she married Ray Chamberlain, whose military career moved them to Virginia. Anna worked as an executive assistant at

Sperry UNIVAC and hospital receptionist. Her true passion was music, sharing her classic soprano voice with church choirs and choral groups throughout her lifetime. She enjoyed playing bridge, fishing, and trips with Ray to Germany. Anna lived a full life, with 9 grandchildren, 14 great-grandchildren, and 1 great-great-grandchild.

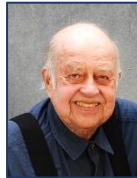

Joseph Anthony Collins — Age 58, of Cedar, MN passed away April 8, 1996. He was survived by his wife, Judith C. Collins, four children, and a grandson.

Paul Timothy Edstrom — Age 81, of Stanchfield, MN passed away July 3, 2023 after living valiantly with Parkinson's. Paul graduated from the U of MN where he joined the ROTC, then served in the Army. He was an engineer at heart and loved to tinker. Paul was survived by his wife, Donna, 7 children, 15 grandchildren, 5 great-grandchildren, and other relatives and friends.

Kenneth Edward Goers — Age 83, passed away December 19, 2022. Ken joined the Army and served three years in the Radio Signal Corp stationed in Germany. He worked for Ecolab, Sperry UNIVAC, and finished his career as head of maintenance at Dakota Co. Tech. Ken is preceded in death by a son and other family, and is survived by his loving wife, Kaye, three children, seven grandchildren, three great-grandchildren, and other beloved family and friends.

John Edward "Jack" Johnson — Age 82, passed away February 6, 2022. Jack graduated with Bachelor's degrees in mechanical engineering and business, and a Master's of Science in industrial engineering, from the U of MN. As an engineer, Jack worked for Bendix, American Hoist and Derrick, AY McDonald, FMC, and Unisys, and finished his career in 1998 with NSP (now Xcel) at the Prairie Island Power Plant. Jack enjoyed his daughters' sports competitions and recitals, was an active member of the Plymouth Lion's Club, and also a member of Mensa, Masons, and Sons of Norway. Jack loved to travel, visiting 48 of 50 states. He is survived by his wife of 58 years, Arlene G. (Oberg) Johnson, two daughters, and five grandchildren.

Richard "Dick" M. Pirnat — Age 83, of Zim passed peacefully February 26, 2022 in Virginia. Dick was drafted and served in the U.S. Army. He worked for IBM and Unisys as a computer designer/analyst. A Unisys coworker remembered him as "a brilliant fellow who could fix any computer faster than most anyone." He was kind, helpful, and witty, and retired after 42 years. Dick is survived by his wife, Diane Krueger-Pirnat, and a son, and was preceded in death by his first wife, Carol (Turpela) Pirnat.
